

Dat Thong

WEB DEVELOPER

Profile

I'm a self taught web developer. All websites I had made are all Responsive and Mobile Approach First, which mean they are work perfectly fine no matter on cellphone, tablet, laptop or even TV.

Projects

Responsive Form

Live version: <https://ooharuooo.github.io/DatVThong/Project3-Form/>

Github code: <https://github.com/ooharuooo/Project3Form>

This a responsive, mobile-friendly registration form using a wide variety of HTML form input types and attributes.

Skills Used :HTML CSS

Gameshow-app

Live version: <https://ooharuooo.github.io/DatVThong/Project6-Gameshow/>

Github code: <https://github.com/ooharuooo/Project6-GuessingGame>

A word guessing game where players will click letters from an onscreen keyboard to try to guess a random phrase.

Skills used: HTML CSS Javascript

PhotoGallery

Live version: <https://ooharuooo.github.io/DatVThong/Project5-photo/>

Github code: <https://github.com/ooharuooo/Project5-photo>

This project is a photo gallery designed to filter through the provided photos with a working search bar.

Skills used: HTML CSS Javascript jQuery

WebAPI

Live version: <https://ooharuooo.github.io/DatVThong/Project8-WebAPI/>

Github code: <https://github.com/ooharuooo/Project8-WebAPI>

Random employees appear every time the page is refreshed, search bar can filter the name of employees.

Skills used: HTML CSS Javascript Fetch API

WebAPP Dashboard

Live version: <https://ooharuooo.github.io/DatVThong/Project7-WebApp/>

Github Code: <https://github.com/ooharuooo/Project7-WebApp>

A most complicated project that I had made, I used both css Grid and Flexbox for the layout. I also used Javascript to make some interested interactions.

Skills used: HTML CSS Javascript jQuery
